

Interchangeable Pryor steel type and holders provide the complete answer to part numbering and general purpose marking for low and medium volume production.

Durable - made from Sheffield special Tool Steel hardened and tempered to 59-61 Rockwell C for maximum endurance and Nickel Plated to resist rust.

Precise - precision ground blanks and quality control techniques ensure consistent character alignment and depth of impression.

Characters - 9 standard sizes from 1.0mm to 10.0mm designed to give clear and deep impressions.

Sets and Singles - available as single pieces or font sets with or without type holders. Font sets are comprised of 100 letters and figures as shown, conveniently packaged in a storage box.

Holders - 7 standard styles are available. Other sizes are made to order.

Logotypes - custom multicharacter logotypes for constant information can easily be used with Pryor type.

Dimensions

C - Character Size
H - Blank Height
W - Blank Width
L - Blank Length

Type is measured as shown here. Note that all characters have the same width of blank except figure 1 and letter I. These are $\frac{2}{3}$ the width of other characters, except sizes 6mm and 10mm which are all the same width.
