

FAST, LIGHT & DURABLE.

Applying labels by hand is costly and labour intensive. With a hand labeller, simply select the numeric code, depress the handle to print and apply.

Surely the quickest and easiest way to apply pressure-sensitive labels.

CONTACT LABELLER FEATURES

- Outstanding, lightweight, anatomic design and simple operation lets people work at peak efficiency
- Self correcting feed mechanism makes the Contact labeller virtually jam-proof!
- Unexposed label rolls prevent the labels from being crushed or contaminated by dust.
- Snap on ink cartridge means no messy re-inking of rollers. The old cartridge simply pulls off for simple replacement.
- Easy-to-change, easy-to-read printing bands with dial-in-knob control.
- An easy drop out bottom that makes the inner workings of the gun accessible for loading and cleaning.
- Light-positive action for labelling of soft goods, odd shapes, metals, glass, plastics and even delicate merchandise.
