

For bold, non-fade, weather-resistant marks on any surface, use Marsh 88 or 99 markers. Marsh 88 and 99 markers are valve operated to eliminate dry-out, delivering consistent marks time after time. Just depress the tip and a fresh supply of ink is released. Use the 88 Marker for fast-drying waterproof marks. Use the 99 Marker with interchangeable tips for heavy-duty industrial marking or where large, bold marks are needed.

Illustrations Full Size

Model 99 Marker
Heavy Duty Construction

The **Marsh 99** felt tip marker gives years of reliable service. Easy refill barrel holds large quantity of T-Grade ink. For use in shipping and sign making where large marks are necessary.

*Cap off overnight?
A few pumps of the valve brings the 88 or 99 back again.*

Model 88 Marker
Large Ink Reservoir

The **Marsh 88** marks any surface – wood, metal, paper, plastics and painted surfaces. Economical valve action marker - contains 35% - 75% more ink than most disposable markers. Long-lasting fiber tip.

T-Grade Ink

T-grade inks are fast drying, smear proof and waterproof.
Colour: black only.

Felt-Tip Points

F-5 round

F-8 Chisel

F-7 T-shaped

Marsh tips are made of 100% pure wool chemically treated for firmness and durability. They give smooth, even flow of ink for marking any surface. Marsh F-tips are designed to screw into the valve stem of the 99 marker.
