

Software that puts you in control.

NEXUS® Software Templates are a system of templates and macros designed to help you produce your own inserts for the Nexus Modular Sign System. This product is designed to integrate seamlessly with your copy of WordPerfect for Windows or Microsoft Word.

The NEXUS® Software Templates perform a number of functions for you. Each template is custom produced to specific insert length, number of lines, typestyle, typesize, margin or justification. They allow you to produce Sign Inserts using your laser printer for one sign, a directory or an entire building.

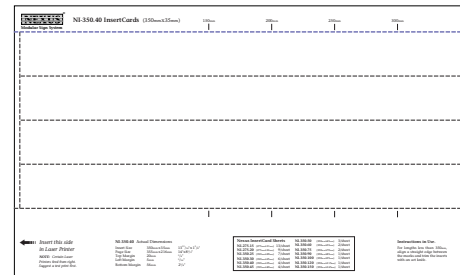

NEXUS® Software Templates allow you to provide your own personalized sign inserts ... the way you want them ... when you want them ... and it's easy! The software has been designed to integrate seamlessly with WordPerfect for Windows or Microsoft Word.

NEXUS® Software Template Manual (on CD)

- Contents:
1. Introduction
 2. Installation
 3. Using the Templates
 4. Printing your work
 5. Correcting Problems
 6. Sample Layout

... with On-Line Help

NEXUS® perforated InsertSheets are available in all 13 sizes supplied in 70 lb. grey bond paper suitable for laser printing.
