

## Hammers

### A. Inspection Hammer

Hammer inserts are available from 3/32" to 1/2" character size

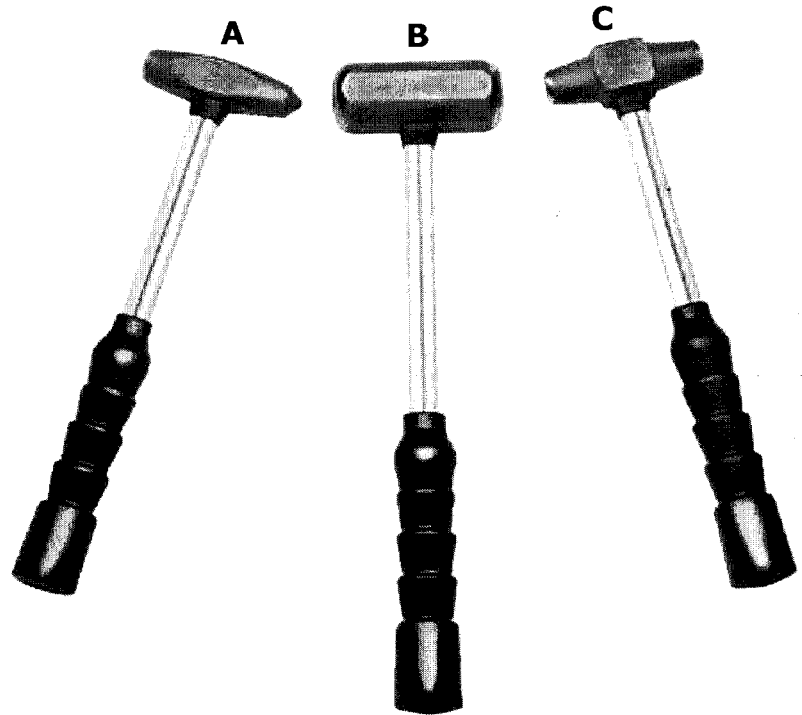

Inspection  
Hammer Insert

- Single character
- Double character
- Inspection Symbols

### B. OE Hammer

Hammer is machined from shock steel. Supplied with impact-resistant fiberglass handle. Hammer end faces are machined with a large radius for safer striking – corners are eliminated to reduce chipping & spalling. These hammers are specially heat-treated to optimize performance.

### C. Double-End Marking Hammer

Tapered ends optimized for marking small stamps.

### D. Cut Letter Hammer

Character, symbol or logo is engraved directly into hammer head. Single or double-ended styles available.
