

Credit Card payments are quick, easy, and always on time. You can pay your bill without ...

- approving the invoice
- entering the invoice in A/P system
- preparing & mailing a cheque

Just charge it to your corporate or personal credit card by returning the form at the right.

Paying by credit card gives you a convenient payment record and in most cases, a 10 to 30 day deferral before the bill from your credit card company even arrives. Plus ... some credit cards offer award points, frequent flyer miles, etc.

Toronto Stamp will process and ship your orders without delay. We will then charge the order to your credit card account and mail both an itemized invoice and your credit card receipt.

Simply complete the form at the right with your credit card number and expiry date. Then sign and mail to our Credit Manager in an envelope marked "CONFIDENTIAL".
