Choose the model for your application (brand extra)

<p>Model WB200 (200 Watts) ... \$260.80</p> <p>Use where lower branding temperatures (700° F to 900° F). Suitable for continuous low-volume branding of "softer" materials, such as leather, some rubber, plastics and soft woods. Not recommended for fast and repetitive production line applications</p>	<p>Model WB300 (300 Watts) ... \$329.80</p> <p>Performs well in the middle temperature ranges (850° F to 1050° F). Harder woods and many rubber products can be branded easily. When using smaller head sizes, can be used for repetitive branding applications (8 to 12 impressions per minute).</p>	<p>Model WB400 (400 Watts) ... \$387.80</p> <p>Performs in the higher temperature ranges (925° F to 1250° F) for most head sizes. Ideal for branding harder woods and rubber. Can be comfortably used for sustained branding applications requiring 12 to 14 impressions per minute.</p>

Custom Brand

Upper case gothic style letters and numbers are either engraved or cast depending on character size.

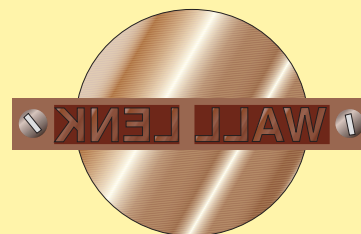

1 Line Brand \$240.80 3 Line Brand \$467.80
2 Line Brand 353.80 4 Line Brand 581.80

Logo Brand

Reproduces a logo, signature, emblem or other artwork to scale. Engraved on cast bronze heads. Engraving depth varies depending on the complexity of the design. Price \$457.20

Slot Brand

Letters fit into a slot in the branding head and can be interchanged. Screw held end locks hold letters securely in place.

1 Slot Brand (3 1/2" x 7/8" or 3 1/2" x 1 1/2") \$ 195.80
2 Slot Brand (3 1/2" x 1 1/2") 211.80

Drill Press Branders

- 1/2" dia. Steel Shaft
- Dual Spring Disks

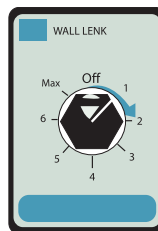

Ideal for repetitive branding applications. Readily fit and adapt to most drill presses.

WB200DP (200 Watts) \$501.80
WB300DP (300 Watts) 573.80
WB400DP (400 Watts) 640.80

Interchangeable Letters

Ideal where messages require frequent changing. Supplied in 6 sizes - 3/16", 1/4", 3/8", 1/2", 3/4", 1". Font Sets also available: 3/16", 1/4" and 3/8".

Temperature Regulator

An economical heat control unit. By adjusting the tool's temperature, a more uniform brand is possible. Overbranding or risk of damage is minimized.

WBTR-3 (120 VAC) \$130.80
