### Application

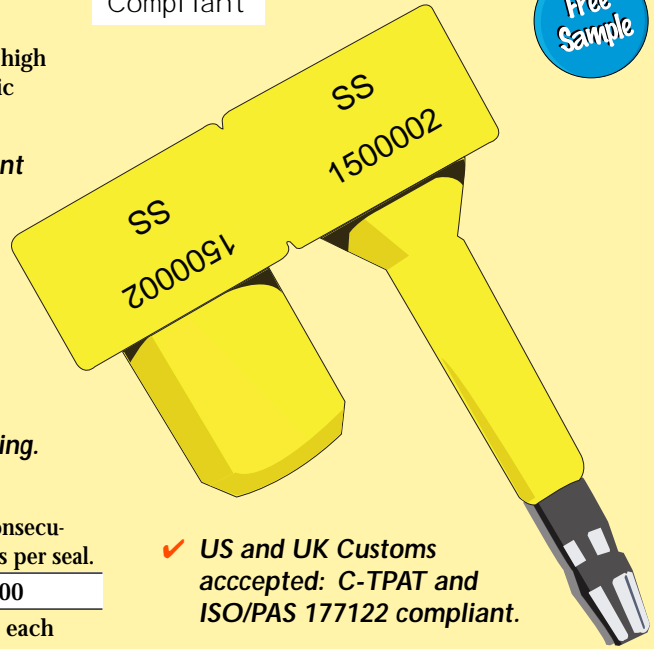

1. Insert the arrow end of seal through opening of item to be sealed.
2. Bend around and insert the arrow end into locking chamber. Push firmly until arrow is engaged and you hear a click.
3. Tug on seal to insure seal is locked.

## Steel Bolt Security Seal

The Steel Bolt Seal is a high security seal, designed for securing high value cargo. A steel bolt provides strength while a molded plastic coating provides tamper-evidence.

- ✓ Both parts numbered to prevent fraud by replacement of either bolt or body.
- ✓ Parts come attached in a unique package for ease of use and accurate tracking of numbers.
- ✓ Patented receptacle greased to prevent tampering through spinning of bolt or receptacle.
- ✓ Laser printed consecutive numbering and company logo provide increased evidence of tampering.

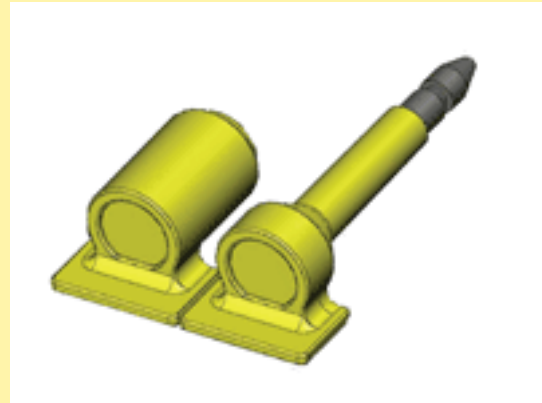

**Snapper Bolt Seal.** Yellow plastic coating. Stamped "SS" plus consecutive numbers. Packaged 25 seals/poly bag or 200 seals/box. Prices per seal.

200	400	600	800	1000
\$1.98 each	\$1.84 each	\$1.68 each	\$1.52 each	\$1.38 each

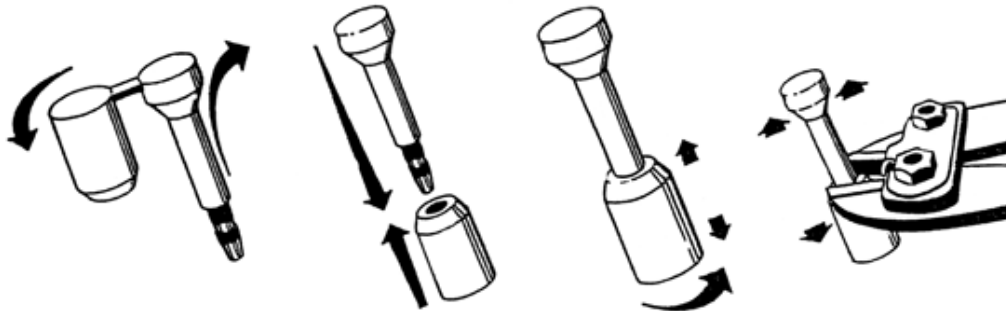

- ✓ US and UK Customs accepted: C-TPAT and ISO/PAS 177122 compliant.

### Application

1. Twist plastic between bolt and body to separate.

2. Fit to item to be sealed and lock together.

3. Test that the seal is locked.

4. Remove with bolt cutters. The use of eye protection is recommended.
